

# SOLAR APERTURE CARD SCANNER

- FULL COLOUR
- HIGH RESOLUTION
- EASY CAPTURE SOFTWARE

The Solar Aperture Card Scanner is an easy to use overhead copier for digitising microfilm aperture cards the way you read them; face up. And just like the human eye it automatically focuses on the subject. Simply insert the aperture card within the guides and with a click of the mouse the job is done.

Printing or saving the image to digital storage such as CD-R or external USB devices is easy with the straightforward capture software.
